Manipal University , [Jaipur, Rajasthan]

- Relevant Coursework: Web Development, Software Engineering, User Interface Design

---

Projects

Portfolio Website

[Live Demo](#) | [GitHub](#)

- Designed and developed a responsive personal portfolio using React.js to showcase my skills and projects.
- Implemented interactive components and smooth navigation using React Router.
- Emphasized a clean and modern UI, and ensured cross-browser compatibility.

Task Tracker App
[GitHub](#)

- Built a task management application using React.js, employing hooks for state management.
- Integrated RESTful APIs to allow users to create, read, update, and delete tasks.
- Enhanced the user experience with animations and a focus on responsive design.

Weather Dashboard
[GitHub](#)

- Created a weather dashboard application using React.js and the OpenWeather API to fetch and display real-time weather data.
- Focused on creating a dynamic UI that adjusts to different screen sizes and resolutions.
- Applied best practices in API consumption and error handling.

Experience

Volunteer Web Developer
Tech Community Group, [City, State]
Dates: [Month Year – Month Year]

- Collaborated with a team to develop and maintain the community's website using HTML, CSS, and JavaScript.
- Assisted in implementing new features and fixing bugs to improve site functionality and user experience.
- Participated in regular code reviews and team meetings to discuss project progress and challenges.
